1 Template

1.1 Template in C++

Basic template using universal library and FASTIO

```cpp
#include <bits/stdc++.h>
using namespace std;
#define FASTIO() ios_base::sync_with_stdio(0); cin.tie(0); cout.tie(0);

void solve() {

}

int main() {
    FASTIO();
    int t = 1;
    // cin >> t;
    while (t--) solve();
}
```

2 Algebra

2.1 text

text

```cpp
#include <bits/stdc++.h>
```
